1. REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Scott et al. in U.S. Patent No. 4,550,241 has a laser nozzle supported by an air cushion. Hoeffel et al. in U.S. Patent No. 4,550,241, Dumberger et al. in U.S. Patent No. 6,318,153 and Akerblom in U.S. Patent No. 6,622,544 disclose sensors for measuring the height or shape of an object. Knut et al. in U.S. Patent No. 3,519,334 is a laser machine that uses a pneumatic mechanical system to adjust the position of a lens so the laser beam remains focused on a workpiece with variable thickness. None of the references of record discloses a datum position or using any change of a body member in a distance sensing device to move a lens, nor is there any motivation to adapt Knut et al. with the distance sensors of Hoeffel et al., Dumberger et al. or Akerblom.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
